

ENVIRONMENTAL CONTROLS

- ☐ Are all work areas properly illuminated?

Action to be Taken

Assigned To:

- ☐ Are employees instructed in proper first-aid and other emergency procedures?

Action to be Taken

Assigned To:

- ☐ Are hazardous substances, blood, and other potentially infectious materials identified, which may cause harm by inhalation, ingestion, or skin absorption or contact?

Action to be Taken

Assigned To:

- ☐ Are employees aware of the hazards involved with the various chemicals they may be exposed to in their work environment, such as ammonia, chlorine, epoxies, caustics, etc.?

Action to be Taken

Assigned To:

- ☐ Is employees' exposure to chemicals in the workplace kept within acceptable levels?

Action to be Taken

Assigned To:

- ☐ Can a less harmful method or product be used?

Action to be Taken

Assigned To:

- ☐ Is the work area's ventilation system appropriate for the work being performed?

Action to be Taken

Assigned To:

- ☐ Are spray-painting operations done in spray rooms or booths equipped with an appropriate exhaust system?

Action to be Taken

Assigned To:

Environmental Controls

- ☐ Is employee exposure to welding fumes controlled by ventilation, use of respirators, exposure time, or other means?

Action to be Taken

Assigned To:

- ☐ Are welders and other workers nearby provided with flash shields during welding operations?

Action to be Taken

Assigned To:

- ☐ If forklifts and other vehicles are used in buildings or other enclosed areas, are the carbon monoxide levels kept below maximum acceptable concentration?

Action to be Taken

Assigned To:

- ☐ Has there been a determination that noise levels in the facilities are within acceptable levels?

Action to be Taken

Assigned To:

- ☐ Are steps being taken to use engineering controls to reduce excessive noise levels?

Action to be Taken

Assigned To:

- ☐ Are proper precautions being taken when handling asbestos and other fibrous materials?

Action to be Taken

Assigned To:

- ☐ Are caution labels and signs used to warn of hazardous substances (e.g., asbestos) and biohazards (e.g., bloodborne pathogens)?

Action to be Taken

Assigned To:

- ☐ Are wet methods used, when practicable, to prevent the emission of airborne asbestos fibers, silica dust and similar hazardous materials?

Action to be Taken

Assigned To:

- ☐ Are engineering controls examined and maintained or replaced on a scheduled basis?

Action to be Taken

Assigned To:

Environmental Controls

- ☐ Is vacuuming with appropriate equipment used whenever possible rather than blowing or sweeping dust?

Action to be Taken

Assigned To:

- ☐ Are grinders, saws, and other machines that produce respirable dusts vented to an industrial collector or central exhaust system?

Action to be Taken

Assigned To:

- ☐ Are all local exhaust ventilation systems designed and operating properly such as airflow and volume necessary for the application, ducts not plugged or belts slipping?

Action to be Taken

Assigned To:

- ☐ Is personal protective equipment provided, used and maintained wherever required?

Action to be Taken

Assigned To:

- ☐ Are there written standard operating procedures for the selection and use of respirators where needed?

Action to be Taken

Assigned To:

- ☐ Are restrooms and washrooms kept clean and sanitary?

Action to be Taken

Assigned To:

- ☐ Is all water provided for drinking, washing, and cooking potable?

Action to be Taken

Assigned To:

- ☐ Are all outlets for water not suitable for drinking clearly identified?

Action to be Taken

Assigned To:

- ☐ Are employees' physical capacities assessed before being assigned to jobs requiring heavy work?

Action to be Taken

Assigned To:

Environmental Controls

- ☐ Are employees instructed in the prevention of ergonomic-related injuries?

Action to be Taken

Assigned To:

- ☐ Where heat is a problem, have all fixed work areas been provided with spot cooling or air conditioning?

Action to be Taken

Assigned To:

- ☐ Are employees screened before assignment to areas of high heat to determine if their health condition might make them more susceptible to having an adverse reaction?

Action to be Taken

Assigned To:

- ☐ Are employees working on streets and roadways where they are exposed to the hazards of traffic, required to wear bright colored (traffic orange) warning vests?

Action to be Taken

Assigned To:

- ☐ Are exhaust stacks and air intakes so located that contaminated air will not be recirculated within a building or other enclosed area?

Action to be Taken

Assigned To:

- ☐ Is equipment producing ultra-violet radiation properly shielded?

Action to be Taken

Assigned To:

- ☐ Are universal precautions observed where occupational exposure to blood or other potentially infectious materials can occur and in all instances where differentiation of types of body fluids or potentially infectious materials is difficult or impossible?

Action to be Taken

Assigned To:
